Lab 5

1. Create Myspace Student with replication
(class: 'simple-student', replication-factor: 3)
2. Create columnfamily 'student-info' (student-id: INT primary key, student-name, varchar, Date-of-birth, varchar, Semester: INT, Name varchar);
3. 'INSERT INTO student-info (Student-ID, Student-name, Date of Birth, Semester, Rep-name) values (1, 'Shrey', 18/07/2000, 7, 'SSV')'.
~~INSERT~~
4. SELECT * FROM student-info;
5. UPDATE student-info SET Student-Name = John
WHERE STUDENT ID = 3;
SELECT * FROM student-info;
